

TWO HOOTS

Can you colour
in the beautiful
butterfly?

Or stick coloured
paper shapes
onto its wings?

What is the
butterfly's name?

When it's finished,
you can cut the
butterfly out and
attach some thread
so it can flutter
from the ceiling.

Chameleons are amazing lizards.

They can change colour to communicate with other chameleons or to warm up or cool down

What colours will you make this chameleon?

How do you think it is feeling?
