

TWO HOOTS

HOW TO MAKE A ROCKING CRAB

Print this sheet onto card or stick it onto a used cereal packet to strengthen it before you start cutting it out

You will need-

2 x googly eyes,
a pair of scissors
and a glue stick.

1. Cut around the crab shell and claw shapes,
(scissors are sharp so ask a grown up if you need help)

2. Fold along the crab shell with the coloured side on the outside

3. Stick the claws to the shell and stick the googly eyes on above the crab's mouth.
